STATEMENT AS OF MARCH 31, 2020 OF THE MGIC INDEMNITY CORPORATION

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of MGIC Indemnity Corporation (“MIC”) are presented on the basis of accounting practices prescribed or permitted by the Office of the Commissioner of Insurance of the State of Wisconsin (“OCI”). The OCI recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Wisconsin insurance law. The National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) has been adopted as a component of prescribed practices by the OCI. The OCI has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, Wisconsin domiciled companies record changes in the contingency reserve through the income statement as an underwriting deduction. In NAIC SAP, changes in the contingency reserve are recorded directly to unassigned surplus. In addition, Wisconsin domiciled companies’ annual contribution to the contingency reserve is calculated as the greater of a) fifty percent of net earned premium or b) one-seventh of the result of the minimum policyholders’ position calculation provided under Wisconsin Administrative Code Section Insurance 3.09(14). In NAIC SAP, the annual contribution to the contingency reserve is fifty percent of net earned premium. The OCI has the right to permit other specific practices that deviate from prescribed practices. A reconciliation of our net income and capital and surplus between the NAIC SAP and practices permitted by the OCI is shown below:

B. Use of Estimates in the Preparation of the Financial Statements – no significant changes

C. Accounting Policy

(1) No significant changes

(2) Generally, bonds are stated at amortized cost and are amortized using the modified scientific method in accordance with SSAP No. 26, Bonds (“SSAP No. 26R”). We do not own any mandatory convertible securities or SVO-identified investments identified in SSAP No. 26R.

(3) - (5) No significant changes

(6) Loan-backed securities are valued using the retrospective or prospective method and stated at amortized cost or fair value in accordance with their NAIC designation.

(7) - (13) No significant changes

D. Going Concern

Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about our ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors – not applicable

3. Business Combinations and Goodwill – not applicable

4. Discontinued Operations – not applicable

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans – not applicable

B. Debt Restructuring – not applicable

C. Reverse Mortgages – not applicable

D. Loan-Backed Securities

(1) Prepayment assumptions for mortgage-backed/loan-backed and structured securities were obtained from investment banker surveys or internal estimates.

(2) We did not recognize any other-than-temporary impairments (“OTTI”) in the current reporting period.

(3) We do not currently hold any securities for which an OTTI has been recognized.

(4) All impaired securities for which an OTTI has not been recognized in earnings as a realized loss:

a. The aggregate amount of unrealized losses:

1. Less than 12 months	\$ 266,625
2. 12 months or longer	\$ -

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months	\$ 488,334
2. 12 months or longer	\$ -

All loan-backed and structured securities in an unrealized loss position were reviewed for potential OTTIs; however, we have the intent and ability to hold these securities long enough to recover our cost basis. Cash flow analysis and credit research were used to support the conclusion that impairments are not other-than-temporary. Unrealized losses are primarily due to the liquidity spreads assigned to these securities. Dependent upon future market conditions, we may determine some securities as other than temporarily impaired

E. Dollar Repurchase Agreements and/or Securities Lending Transactions – not applicable

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing – not applicable

G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing – not applicable

H. Repurchase Agreements Transactions Accounted for as a Sale – not applicable

 20. Fair Value Measurement

A. Assets and Liabilities Measured and Reported at Fair Value

(1) Fair Value Measurements at Reporting Date

We applied the following fair value hierarchy in order to measure fair value for assets and liabilities:

Level 1 – Quoted prices for identical instruments in active markets that we can access.

Level 2 – Quoted prices for similar instruments in active markets that we can access; quoted prices for identical or similar instruments in markets that are not active; and inputs, other than quoted prices, that are observable in the marketplace for the instrument. The observable inputs are used in valuation models to calculate the fair value of the instruments.

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or value drivers are unobservable. The inputs used to derive the fair value of Level 3 securities reflect our own assumptions about the assumptions a market participant would use in pricing an asset or liability.

Fair value measurements at reporting date:

	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
a. Assets at fair value					
Cash equivalents - Money market mutual funds	\$ 1,436,453	\$ -	\$ -	\$ -	\$ 1,436,453
Bonds		980,000			980,000
Total assets at fair value	\$ 1,436,453	\$ 980,000	\$ -	\$ -	\$ 2,416,453
b. Liabilities at fair value	\$ -	\$ -	\$ -	\$ -	\$ -
Total liabilities at fair value	\$ -	\$ -	\$ -	\$ -	\$ -

(2) Fair Value Measurements in (Level 3) of the Fair Value hierarchy – not applicable

(3) Policy on Transfers Into and Out of Level 3

At the end of each reporting period, we evaluate whether or not any event has occurred, or circumstances have changed that would cause a security to be transferred into or out of Level 3. During the period ended March 31, 2020, there were no transfers into or out of Level 3.

(4) Inputs and Techniques Used for Level 2 Fair Values

We use independent pricing sources to determine the fair value of our financial instruments, which primarily consist of assets in our bond portfolio, but also includes amounts in cash and cash equivalents and restricted cash. A variety of inputs are used; in approximate order of priority, they are: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. Market indicators, industry and economic events are also considered. This information is evaluated using a multidimensional pricing model. This model combines all inputs to arrive at a value assigned to each security. Quality controls are performed by the independent pricing sources throughout this process, which include reviewing tolerance reports, trading information, data changes, and directional moves compared to market moves.

On a quarterly basis, we perform quality controls over values received from the pricing sources which also include reviewing tolerance reports, data changes, and directional moves compared to market moves. We have not made any adjustments to the prices obtained from the independent pricing sources.

To determine the fair value of financial instruments in Level 1 and 2 of the fair value hierarchy, independent pricing sources, as described above, have been used. One price is provided per security based on observable market data. To ensure securities are appropriately classified in the fair value hierarchy, we review the pricing techniques and methodologies of the independent pricing sources and believe that their policies adequately consider market activity, either based on specific transactions for the issue valued or based on modeling of securities with similar credit quality, duration, yield and structure that were recently traded.

(5) Derivative Fair Values – not applicable

B. Other Fair Value Disclosures – not applicable

C. Aggregate Fair Value for All Financial Instruments

The following tables set forth the aggregate fair values, admitted asset values and level of fair value amounts for financial instruments held as of March 31, 2020 and December 31, 2019:
