Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of
MGIC Profit Sharing and Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of MGIC Profit Sharing and Savings Plan (the "Plan") at December 31, 2008 and 2007, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**MGIC PROFIT SHARING AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

1. Description of the Plan

The MGIC Investment Corporation Profit Sharing and Savings Plan (the "Plan") was established effective December 1, 1984, for the purpose of providing profit sharing and savings plan benefits as well as to add a "cash or deferred arrangement" qualified under Section 401(k) of the Internal Revenue Code of 1986 (the "Code"), effective January, 1986, to eligible employees of MGIC Investment Corporation (the "Company") employed on or after that date. The Plan is also subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, ("ERISA").

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan Agreement and the Summary Plan Description for more complete information.

General and Eligibility. The Plan covers employees of the Company. Employees are eligible to participate in the savings components of the Plan on their first day of employment. Employees are eligible to participate in the Profit Sharing component of the Plan as of the January 1st or July 1st nearest to the date in which they have completed 12 consecutive months of employment.

Contributions. Participating employees of the Company may make voluntary contributions, through payroll deductions, on a before-tax basis (401(k) contributions), limited to the lesser of \$15,500, and on an after-tax basis, limited by the \$45,000 defined contribution limit from all plan contribution sources. Additionally, participants age 50 and older, may contribute catch up before-tax contributions (\$5,000 for 2008) after first contributing the 401(k) annual maximum. Participants may change their contributions at any time. A matching employer contribution is made on employees' before-tax contributions at a rate of 80% of the first \$1,000 contributed and 40% of the next \$2,000 contributed. Employer profit sharing contributions are determined by the Board of Directors of the Company. Such contributions, if any, are made on an annual basis. Employer profit sharing contributions are allocated to the individual participants' accounts in the ratio of the individual participants' compensation to the total of all participants' compensation.

Participants are allowed an election to allocate contributions among a variety of options in increments of 1%. In the absence of such an election, for continuing participants, the prior investment election remains in effect, and for new participants, all contributions are invested in the US Bank Stable Asset Fund.

**MGIC PROFIT SHARING AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

The following features are available to the Plan's participants:

- The plan account is updated daily, providing daily market valuation.
- A toll-free, 24-hour hotline is available, in addition to a website, to access plan account information such as total current balance, balance by fund, and a projection feature for various contribution and earnings rate assumptions.
- The hotline and website are available to transfer existing account balances and to change the investment election for future contributions to the Plan as frequently as the participants desire.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit Payments. At retirement, death or disability, a participant is entitled to receive as benefits the amount credited to their account. If employment is terminated for any other reason, a participant is entitled to the portion of their account attributable to their own contributions plus their vested interest in the portion of their account attributable to employer contributions. The participant may request withdrawals from their account in the event of financial hardship, as defined by Internal Revenue Service (IRS) regulations.

Vesting and Forfeitures. The portion representing employer contributions vests with the participant as follows:

Years of Vesting Service at the Date of Termination	Percentage of Account Balance Representing Vested Interest
1	0%
2	50%
3	75%
4 or more	100%

Any portion of the employer contributions that has not vested at termination is forfeited after a one year break in service. Forfeitures of employer profit sharing contributions are allocated to remaining participants and forfeitures of employer matching contributions are applied as a reduction of future matching contributions payable by the employer.

**MGIC PROFIT SHARING AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

Participant Loans. Loans from the Plan are available to the Plan's participants in the event of financial hardship or upon attainment of age 59 1/2 for personal reasons.

The minimum amount which may be borrowed is \$1,000. Loans may not exceed the lesser of 50% of the total vested Account Balances or \$50,000 (less the highest balance of loans outstanding during the prior twelve-month period), and are generally limited to one loan per calendar year. The loan is repaid through payroll deductions over a period of up to 5 years (up to 10 years for home purchase). The interest rate is prime rate plus 1% at the time the loan is issued and remains the same for the life of the loan. Upon approval of the loan, a loan processing fee is charged to the participant. At December 31, 2008, loans bore interest at rates ranging from 5.0% to 10.0% and were due at various dates through 2018.

2. Summary of Significant Accounting Policies

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein during the reporting period and, when applicable disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the US Bank Stable Asset Fund collective trust investment. As required by the FSP, the Statement of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

**MGIC PROFIT SHARING AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

The following are the significant accounting policies followed by the Plan:

Method of Accounting. The Plan's financial statements are prepared on the accrual basis of accounting.

Investments and Income Recognition. Mutual funds and Employer Stock are reported at fair market value based upon closing quotations on the last business day of the year. Common Collective Funds are valued at fair market value of the assets that make up the common collective funds.

Participant loans are valued at amortized cost, which approximate fair value.

Purchases and sales of investments are recorded on a trade-date basis.

Dividend income is recorded on the ex-dividend date. Interest is recorded on the accrual basis.

Since the Plan's investments are reported at fair value, the Statement of Changes in Net Assets Available to Benefits reflects both realized gains and losses and unrealized appreciation and depreciation of investments.

Plan Costs and Expenses. In 2008 and 2007, benefit disbursing expenses, trustee fees, investment management service fees and administrative costs of the Plan were voluntarily paid for by the Company.

Contributions. Profit sharing contributions from the Company are accrued as authorized at the discretion of its Board of Directors. Contributions from employees and matching employer contributions are recorded in the period the Company makes payroll deductions from the Plan participants.

Benefits. Benefits are recorded when paid.

**MGIC PROFIT SHARING AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

3. Fair Value Measurements. Financial Accounting Standards Board Statement No. 157, Fair Value Measurements (FASB Statement No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

MGIC PROFIT SHARING AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Common Collective Trust Funds: Valued based on various market and industry inputs.

Mutual funds: Valued at the net asset value ('NAV') of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

Assets at Fair Value as of December 31, 2008

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

5. Tax Status

The Plan is intended to be a qualified plan under Section 401(a) and 401(k) of the Code and therefore exempt from Federal income taxes under the provisions of Section 501(a).

The Company has received a favorable determination of tax exempt status for the Plan from the IRS in a letter dated May 22, 2002. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

6. Party-In-Interest Transactions

All transactions involving Employer Stock, and loans to participants are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under ERISA regulations.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated or should the Company elect to discontinue contributions, participants become fully vested, and the plan assets would be converted to cash and distributed to participants in accordance with their account balance.

8. Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term could continue to materially affect participants' account balances and the amounts reported in the statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.
